

BOLD

by Amahla

In strength I can say that you saved me
Because I've become, what you've made me
Within your arms there's safety
You make me believe
That I'm ready to give you more
If I may be so Bold

I can't deny I'm unsteady
Taking my own advice
I will adhere to my convictions
And put emotions ahead of pride

Make me feel things I never
Thought I'd feel in my whole damn life
You are what I've been missing
Our moment has arrived

In strength I can say that you saved me
Because I've become what you've made me
Within your arms there's safety
You make me believe

That I'm ready to give you more
If I may be so Bold
